RE: Gym Preventive Maintenance Service

The following is a schedule of preventive maintenance services that are recommended by most manufactures to extend the life of your equipment, slow down depreciation, minimize downtime, ensure customer satisfaction, and decrease liability:

MOTORIZED TREADMILLS: Run diagnostics/calibrate, vacuum under hoods as needed, inspect deck and belts for wear and tear, troubleshoot errors, check motor brushes, adjust running belt, check power cord, check amp draw, clean exterior of machine. Deck wax applied bi-monthly or as needed, \$15/per treadmill.

NON-MOTORIZED TREADMILLS: Vacuum inside of treadmill as needed, inspect belts for wear and tear, lubricate roller bearings, tighten loose nuts, bolts, and screws, clean exterior of machine.

ELLIPTICAL TRAINERS: Run diagnostics/calibrate, Inspect for fluency of motion and proper resistance. Tighten crank arms, inspect pedal arms, rollers and shoes, troubleshoot for errors, and clean exterior of machine.

SPIN BIKES: Run diagnostics/calibrate, inspect chains for link damage, lubricate seat posts, handlebars and pop-pins, adjust and clean brake pads, and clean exterior.

STEPPERS & STEPMILLS: Run diagnostics/calibrate, clean and lubricate chains, check springs and chain for weaknesses, lubricate drive chain and hub assembly, check alternator brushes, clean exterior of machine.

NU-STEP/SCI-FIT: Lubricate seat glide, check handle bars and foot pads, check belts, pulleys, shafts, and bearings, lubricate, calibrate, and clean exterior

JACOB'S LADDERS: Check shrouds, lubricate chains, check springs and chain for weaknesses, check ladder bars, vacuum under shrouds as needed, check rubber wheels, and clean exterior

SINGLE & MULTI-STATION TRAINERS: Clean and lubricate selector rods, lubricate and check bearings and barrels, inspect frame and pulleys, and check for proper operation.

FREE WEIGHTS: Tighten dumbbells/barbells, inspect for weakness, and check all weight benches.

Cost: \$ 100.00 Monthly
